Position: Risk Analyst

Location: Chadds Ford, PA

Description:

Pelican Auto Finance, LLC is seeking an analyst for its Risk Department. The analyst will assist in managing the risk of the portfolio through auditing, analyzing, measuring and reporting on all aspects of the Company; including but not limited to: service contract program, insurance recoveries, delinquency, pricing, etc. The ideal candidate must have the ability and desire to analyze and interpret information quickly and efficiently act in the Company's best interests. Additionally, this person must possess strong written and verbal skills and an ability to multi-task with a fine attention to detail.

Duties and Responsibilities

- 1) Analytical Support
 - a. Forecasting- Develop projections for budgets, portfolio performance, etc.
 - b. Pricing – Track pricing/default trends to ensure the portfolio performs within expectations
 - c. Reporting- Support all departments with analysis and reports to reduce risk and improve processes throughout the Company
- 2) Management of the Service Contract Program
 - a. Develop metrics to track effectiveness of the program
 - b. Develop processes to accurately track contracts and reconcile with accounting
 - c. Other issues
- 3) Management of Insurance Recoveries and Insurance Requirement Compliance
 - a. Analyze and report on insurance recoveries, delinquency, potential claims never processed
 - b. Work with loan servicing and third party vendors to improve compliance with the Company's mandatory car insurance requirement

Qualifications

- Bachelor's degree in Mathematics, Finance/Accounting, Physics or similar quantitative field
- 2+ years of experience in a quantitative/analyst role or similar experience
- Ability to multi-task and operate effectively in a high-stress environment
- Ability to deliver results under time and quality constraints
- Requires a clear sense of urgency and accountability
- Strong MS Excel, PowerPoint and Word skills
- Knowledge of computer programming language(s) a plus
